ABOUT SOURCE DATA LLC

Who We Are

Source Data LLC provides background screening and verification services that help organizations, property managers, and individuals make informed, compliant decisions.

OUR PURPOSE

Clear, accurate, and compliant background information.

We help organizations, property managers, and individuals make informed decisions through a simple, documented screening process – backed by real people ready to help.

What we stand for

Accuracy

Information verified with original sources and matched using multiple identifiers.

Compliance

A process built around the Fair Credit Reporting Act and state law.[1]

Privacy

Secure portal delivery, with access limited to authorized users.

Support

Real people by phone and email for orders, reports, and questions.

Our screening & verification services

6 SERVICES

Background Screening

Criminal, identity, and records searches for informed hiring decisions.

Social Media Screening

Public online activity reviewed and reported by job-relevant category.

Verification & References

Employment, education, and professional references confirmed with the source.

Tenant Screening

Consistent screening options for landlords and property managers.

Form I-9 Auditing

Reviews of Form I-9 records for completeness and accuracy.

Personal Background Screening

Individuals can request their own check to see what is on their record.

Tailored by industry
Packages built around your roles and requirements

Who we serve

Organizations
Employers, HR teams, and staffing firms screening candidates, contractors, and volunteers.

Property managers
Landlords and leasing teams screening rental applicants consistently.

Individuals
People who want to review their own background information.

How we work

01 — Build your package
We match searches to your roles, locations, and requirements.

02 — Authorization first
Candidates receive required disclosures and give consent.[2]

03 — Search & verify
Records are searched and verified with original sources.

04 — Results in your portal
Completed reports are delivered securely to authorized users.
